

# School Trip to Singapore & Malaysia. 8-12 Nov. 2018

## ■ The city center of Singapore - Brother and sister Programme - River cruise (9<sup>th</sup>, Nov.)

- We bought so many things in China Town, Little India, and Arab Street. We were happy about the reasonable price.
- I was impressed by the Merlion. I had seen it only on TV.
- Our uni-students of the BS program were so kind and matured. I cannot believe they are just one year older than we.
- It was a really nice relaxing time to see the night view on a boat in the river.
- The laser show was so beautiful and I was super happy.

## ■ Johor-Bahru-Home visit (10<sup>th</sup>, Nov.)

- I ate curry with my hands for the first time!! It was so delicious!
- I learned how to play Malay game.
- The family were all kind and I liked them very much. I didn't want to go home!

■ School Exchange Program (SMK Infant Jesus Convent)—Sentosa Island—Garden Rhapsody (11<sup>th</sup>, Nov.)

• It is my best memory that we made good friends with SMK students. I struggled with English but both of us tried to understand, so we were able to communicate with each other so naturally.

• I learned Malay food and games. I managed to communicate only with simple words!

Thank you so much, to all the people we met during our trip.

It was a great trip with a lot of new things, first experiences, and heartwarming friendship!
