

Toyosaka Scenery

by students from class 3-1&3-2

We chose some pictures to introduce how beautiful our village Toyosaka is. We believe Toyosaka is one of the most beautiful countryside spots in Japan. Toyosaka is a peaceful town surrounded by green mountains. In early spring, you can also see beautiful patches of rice fields with calm water

waiting for rice-planting. Walking on the mountain, the sunshine that comes through the leaves is so refreshing. Mt. Itanabe is a symbol of Toyosaka. From the summit, you can have a nice view of Kamokita High School. We sing of Mt. Itanabe in our school song as well.

In summer, it is much cooler in Toyosaka than in a big city, because of the rich greenery. In autumn, you can enjoy the amazing leaf color change. After a snowy winter, we enjoy spring with lots of flowers. You can enjoy turfs in full bloom all over the rice-field edges and paths.

Just next to our school, there is Tom Milk Farm, which produces milk-products of high quality of milk-pruoducts. They have a variety of gelato. When you come to our school, don't miss the farm's tasty gelato.
